## NEW Universal Fit Weight Balancing Arc Flash Protection Faceshield

ONLY FROM SALISBURY by Honeywell

*In 2009, Salisbury by Honeywell introduced a revolutionary weight balancing faceshield with enormous success. The design helped users work comfortably, safely and efficiently, but it only fit on a limited number of manufacturer's hard hats. Once again, Salisbury has met the customers' needs and exceeded them with the new AS1200U Universal Fit Weight Balancing Faceshield, fitting on all popular front brim hard hats.*

Salisbury by Honeywell's NEW revolutionary AS1200U is a weight balancing arc flash protection faceshield that fits all popular front brim hard hats regardless of the manufacturer. The shield easily stows in a balanced, compact position, centered over the top of the front brim hard hat when not needed.

The AS1200U assembly attaches to the front brim hard hat with an elastomeric band and front brim clips that secures the bracket onto the brim. All parts are dielectric and specifically designed for arc flash protection.

The AS1200U has an ATPV rating of 12cal/cm<sup>2</sup> (NFPA 70E HRC 2) and utilizes nanotechnology and a fog reduction coating, to provide a clearer, more transparent window for improved visibility. The faceshield unit includes an upper bracket ventilation feature that allows a natural air flow through the top of the face shield. This reduces fogging of the visor, lowers CO<sub>2</sub> levels and improves comfort for the user.

### Optional Accessories

**Attachable Task Lights:** On both sides of the faceshield is an easily adjustable flashlight clip which holds task lights. With these optional task lights, the user is not inconvenienced with holding a flashlight while working. These flashlights features a high intensity long lasting white LED lamp with an overall brightness of 35 lumens.

**Transparent Chin Guard:** The Transparent Chin Guard dramatically improves the user's peripheral view. The enhanced viewing area increases worker performance and productivity. The highly transparent chin guard allows improved awareness and greater safety.

**Anti-Fog Inner Lens:** The attachable inner lens includes an air spaced design that decreases fogging. The inner lens meets ASTM requirements for Anti-Fog Lenses.

AS1200U - Hard Hat Not Included

AS1200U with Optional Accessories; AS12CLR Clear Chin Guard and FLKIT Flashlight Kit

The logo for 'irby' features the word 'irby' in a bold, blue, lowercase sans-serif font. A yellow lightning bolt graphic is positioned to the left of the 'i' and 'r', extending upwards and downwards.

ONLY FROM **SALISBURY** by Honeywell

## AS1200U FEATURES & BENEFITS

- 12 cal/cm<sup>2</sup> ATPV Rating
- Absorbs >99.9% of Harmful UV Radiation
- Reduces Fogging
- Tested to ASTM F2178 Specifications
- Unique Weight Balancing Design
  - The shield sits in a balanced stowed position, centered over the top of the hard hat when not needed.
- Optional Task Light Feature
  - Dual task light option available on both sides of the shield to offer advanced lighting.
  - Adjustable task light clip securely locks in place when the flashlight is installed.
  - Use optional task lights to narrow in on a focal point while working.
  - Long lasting white LED lamps.
  - Overall brightness of 35 lumens.
- Replaceable Window, NO TOOLS REQUIRED.
- Fits All Popular Front Brim Hard Hats
- Ventilated Design
  - Reduces fogging and lowers CO<sub>2</sub> levels when worn due to the upper bracket ventilation feature.
- Adjustable Pivot Tension
  - The adjustable pivot tension gives users the ability to tighten the shield into a balanced stowed position.
- Can Be Easily Removed from the Hard Hat
- Nanoparticle Shield/Window with Fog Reduction Coating
- One Hand Operation
  - Ability to slide the shield into a stowed position by using one hand.
- Excellent Peripheral Vision for the User
